

## Vitamine & Derivate

### Strong products

Vitamin B1 Activated form  
Benfotiamine

Vitamin B2 Activated form  
Riboflavin-5Phosphate

Vitamin B6 Activated form  
Pyridoxal 5-phosphate monohydrate(P5P)

Vitamin B9 Activated form  
L-5-Methyltetrahydrofolate Calcium

Vitamin B12 Activated form  
Hydroxocobalamin  
Methylcobalamin  
Adenosylcobalamin

Vitamin B7 Biotin (Vitamin H)

Vitamin B8 Dextral isomer activated form  
D-chiro-inositol (DCI)

Coenzyme-Q10

Vitamin K2(MK-7) Fermentation

Methoxatin (PQQ)

### Other Vitamins

Vitamin B1	Thiamine
Vitamin B2	Riboflavin
Vitamin B3	Nicotinamide
Vitamin B3	Nicotinic acid
Vitamin B5	D-calcium pantothenate
Vitamin B6	Pyridoxine
Vitamin B8	Inositol (levorotary isomer)
Vitamin B9	Folic acid
Vitamin B12	Cobalamin
Vitamin B15	Pangamic acid
Vitamin C	Ascorbic acid
Vitamin K1	Phylloquinone
Vitamin D3	Cholecalciferol
Vitamin E	DL-Alpha-Tocopherylacetat

## Amino acid & Derivate

### Strong products

Betaine  
Glutathione, reduced form (GHS)  
Glutathione, S-acetylglutathione (SAG)  
N-acetylneuraminic acid/Sialic acid(SA)  
S-Adenosyl-L-methionine Disulfate  
Tosylate(SAMe)  
N-Acetyl-L-cysteine (NAC)  
Collagen protein  
Melatonin(MT)  
5-hydroxytryptophan(5-HTP)  
GABA  
Creatine Monohydrate(80mesh&200mesh)  
20%-30%EPA+0%DHA Natural source

### Other Amino acid

L-Valine  
L-leucine  
L-isoleucine  
BCAA (instant and regular)  
L-Glutamine  
Sodium Hyaluronate  
Polyglutamic Acid  
L-Histidine  
L-Theanine  
L-Tryptophan

## Sugar Substitute

Erythritol | Allulose | Sucralose

# Leading Chem

Make your sourcing job be easy  
Make sure your business be safe

## Cosmetic ingredient

Sodium alginate (Alginic acid sodium salt)

Alpha-Arbutin

S-acetylglutathione (SAG)

Glutathione, oxidized form

3-O-Ethyl-L-ascorbic acid

Ascorbyl glucoside

Polyglutamic Acid

L-Histidine

L-Theanine

L-Tryptophan

Parsol MCX

Parsol 1789

Niacinamide

D-PANTENOL

ALPHA TOCOPHEROL ( VITAMIN E )

Sodium hyaluronate

## Strongly Trends Ingredient

### Piroctone olamine (PO/OCT) The 3rd generation anti-dandruff

Dandruff has become the second biggest hair health problem for consumers. 1/5 people worldwide would be troubled by it.

The most popular and effective anti-dandruff ic called ZPT (Zinkpyrithion) which has been used for more than 60 years. But!! it was listed as CMR\* (carcinogenic, mutagenic or toxic for reproduction)and had been forbidden from 1, March, 2022

PO is a perfect alternative to ZPT.

It targets the cause of danruff directly, good and lasting function for dandruff.

It's mild, safe and pwoderful.

Leading Chem is the second largest supplier for PO worldwide, and we have the largest production capacity for it.

## Pharma intermediate

Pemetrexed | Gemcitabine

## Animal nutrition

L-Shikimic Acid
